

Vocabuilder User Manual

Main Page

- The navigation bar allows
 - a guest user to create an account by clicking on the “Sign Up” button
 - a registered user to log in by clicking on the “Log In” button
 - to switch themes between “light” and “dark” by clicking on the icon in the upper right corner
- The “Let’s Go” button forwards
 - a guest user to the signup page
 - a registered user to the profile page

Signup Page

The screenshot shows a web browser window with the address bar displaying `https://wa.toad.cz/~lepiknik/signup.php`. The page title is "Vocabuilder". The navigation bar includes "Log In" and "Sign Up" links. The main content area is titled "CREATE AN ACCOUNT" and contains a form with the following fields:

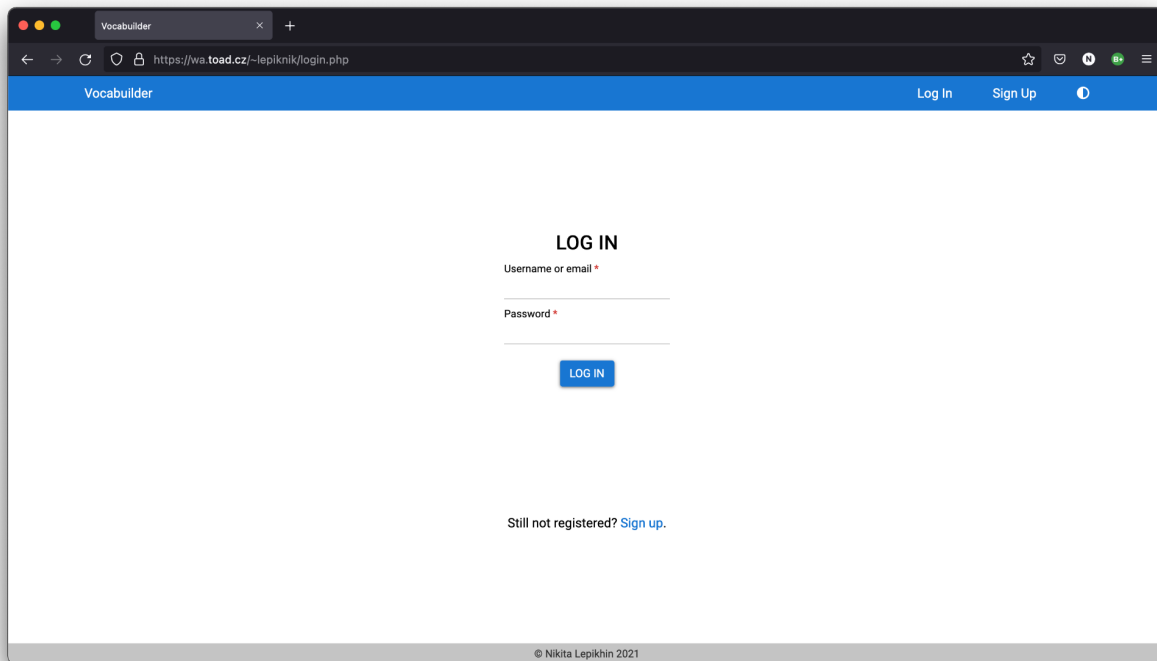

- First name (optional)
- Last name (optional)
- Birthdate * (required, format mm / dd / yyyy)
- Email * (required)
- Username * (required)
- Password * (required)
- Repeat password * (required)

A blue "SIGN UP" button is located below the form. At the bottom of the form, there is a link: "Already have an account? [Log in.](#)". The footer of the page reads "© Nikita Lepikhin 2021".

Here you can create an account. The following requirements must be met in order to proceed:

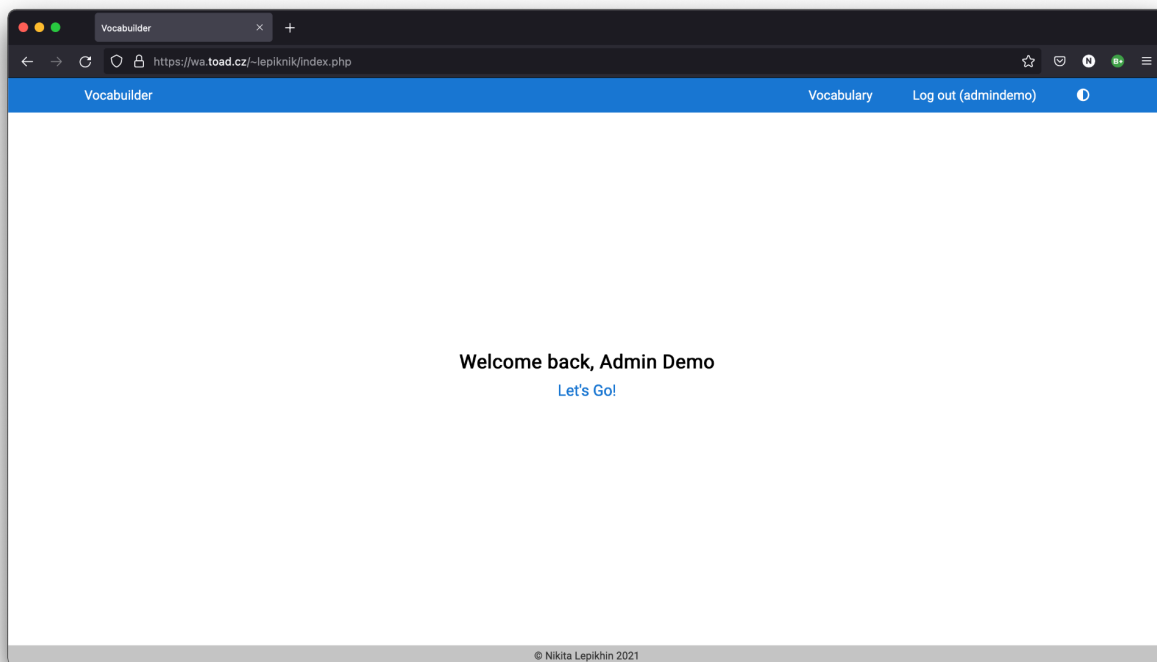

- The “first name” and the “last name” fields are optional. The length must not exceed 50 characters. All strings consisting of small and capital letters as well as hyphens are allowed.
- The birthdate field is required. You have to be at least 14 years of age to sign up. Your birth year must be greater than 1920.
- The email field is required. You have to provide a valid email address in the form of [user@example.com](#). Your email must not exceed 100 characters in length.
- The username field is required. You may use lowercase letters, numbers, periods and underscores. Note that it is not possible for your username to start or end with a period.
- The password fields are required. The password must be at least 10 characters in length, contain lowercase and uppercase letters, digits and special characters. Maximum length is 100 characters. Both passwords must match in order to proceed.

Login Page

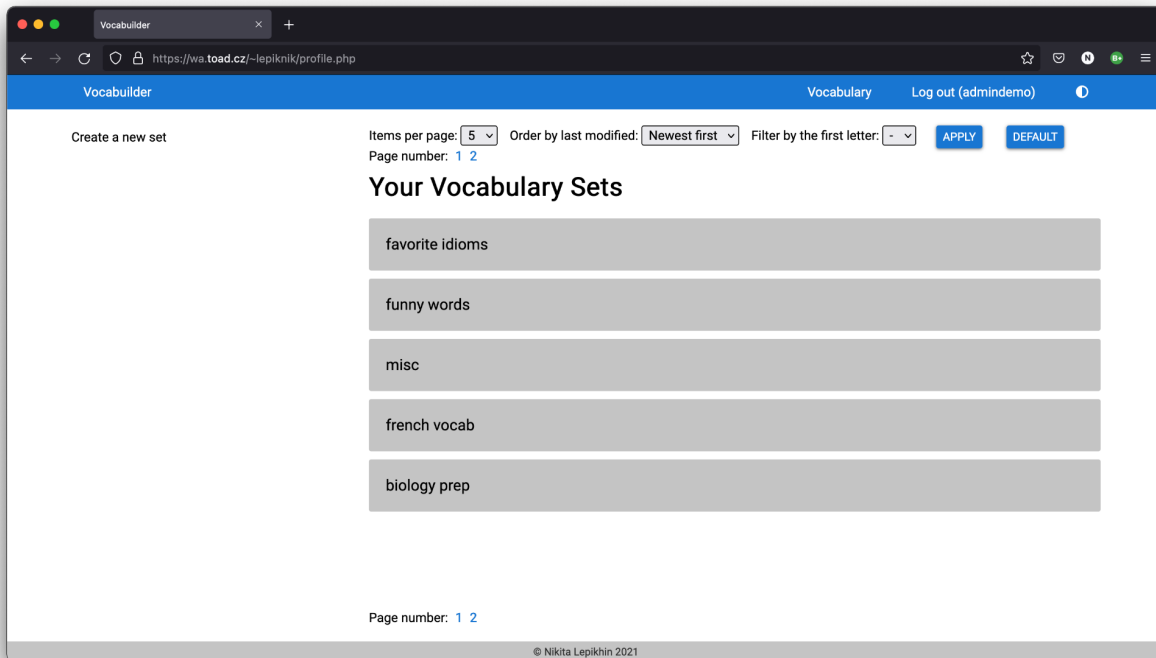

If you already have an account, you may log back into it here. You must provide your username or email address and your password.

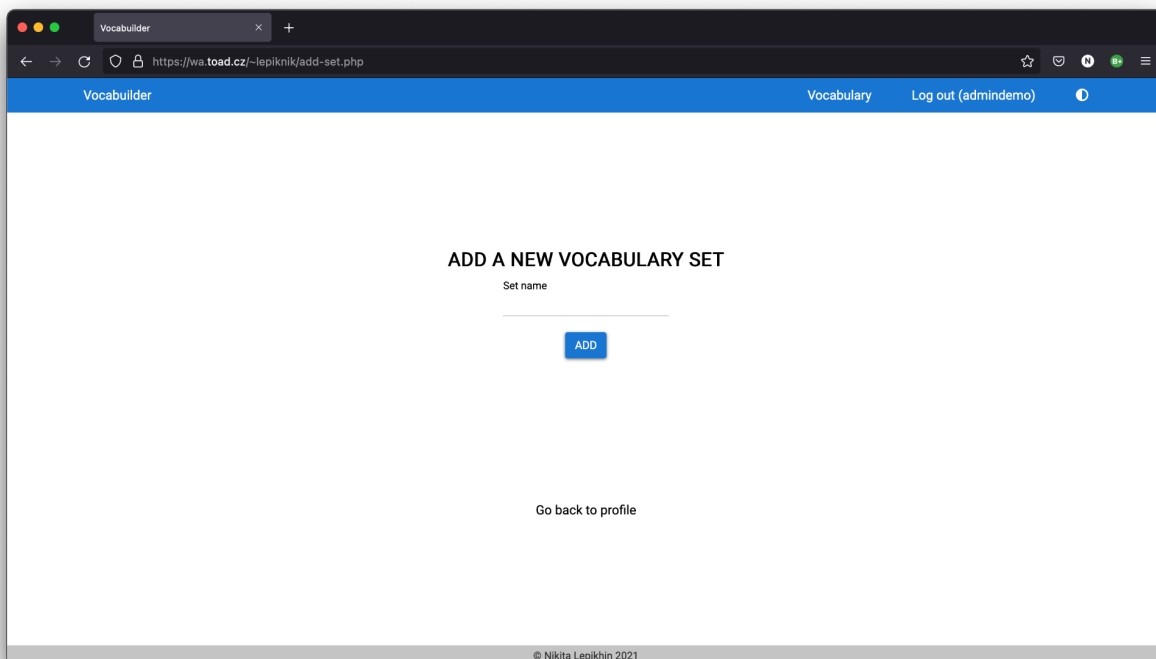

Using the service

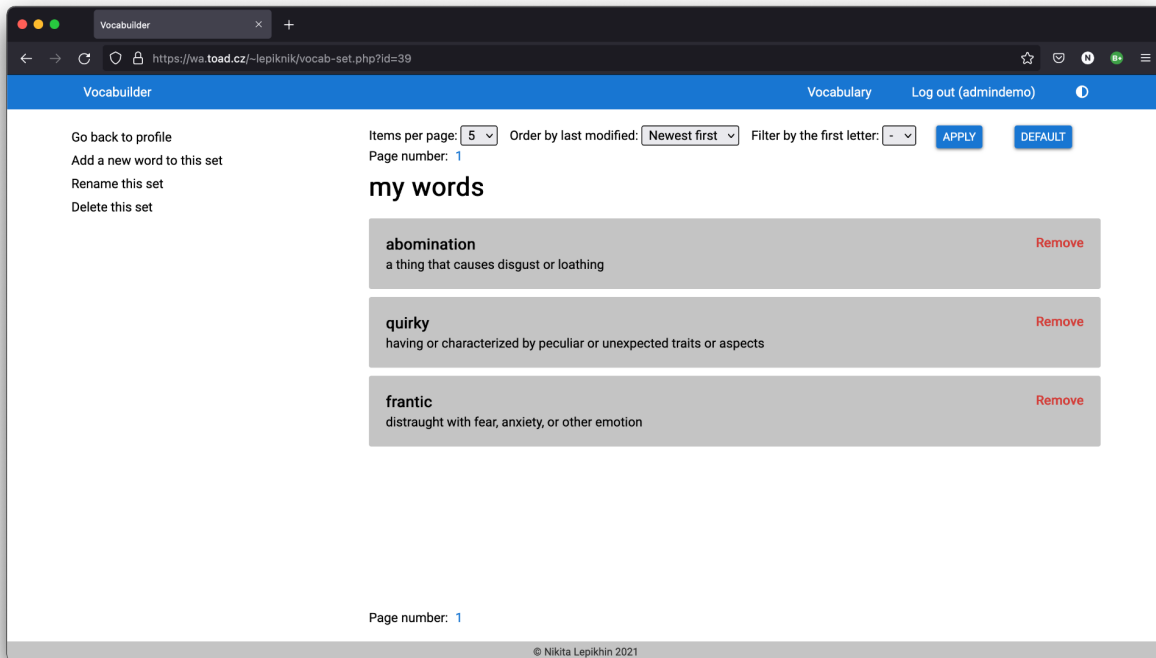

After logging in you will be greeted on the main page. You can see your vocabulary sets by clicking on the “Vocabulary” button in the navigation bar.

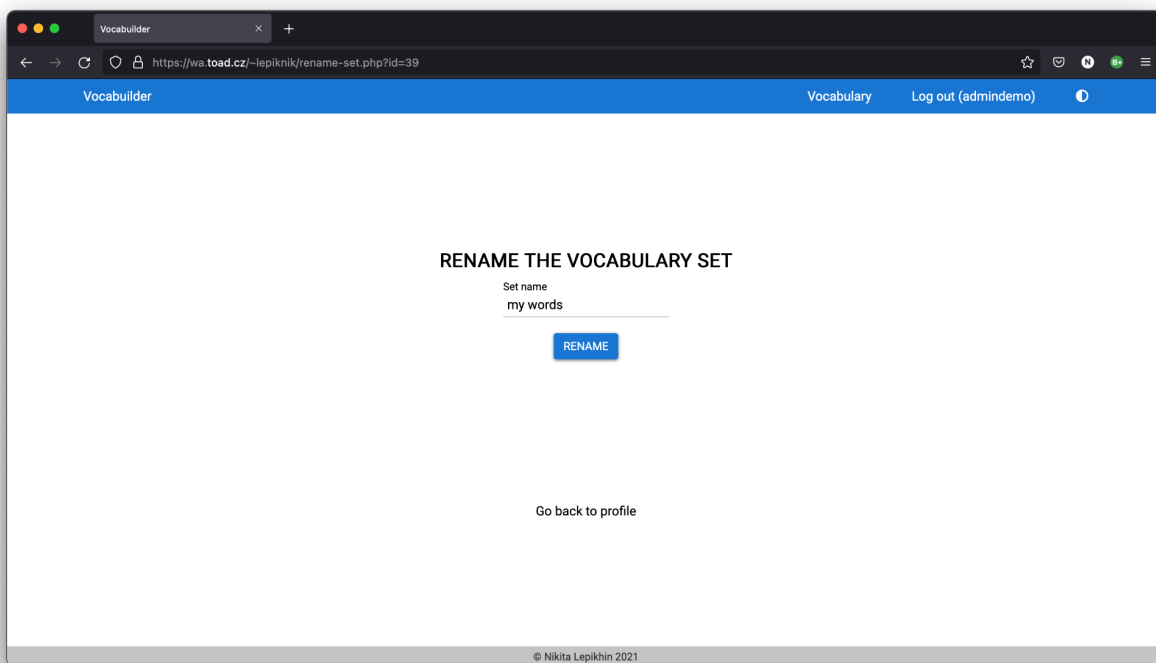

Here you can create a new vocabulary set.

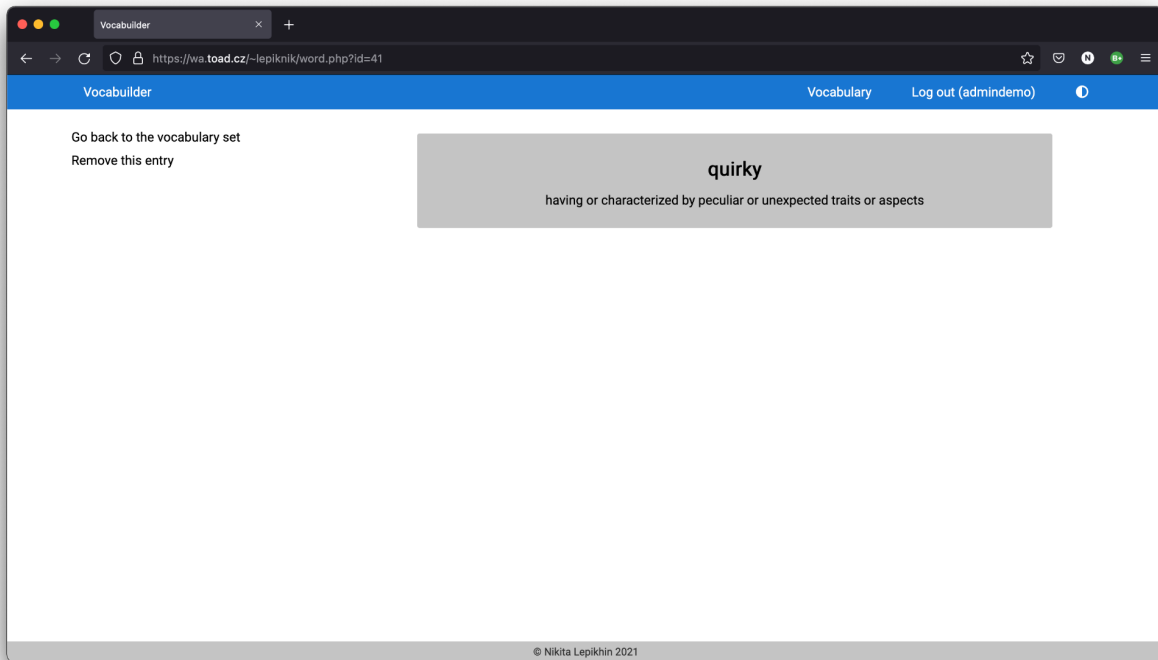

Alternatively, you can navigate through the existing ones. For your comfort, you can set how many items per page you would like to see, sort by the last modified time and filter by the first letter of the name. After picking the desired options, you should click “Apply” to confirm your settings. At any time you may click “Default” to return to the default setup. You can navigate through pages by clicking on the corresponding page number at the bottom or at the top of the page.

You can open up any set by clicking on the corresponding item in the list of sets. Here the navigation works the same way it did on the profile page. You can remove a word entry by clicking the “Remove” button on the corresponding word entry item in the list. You can rename the currently opened vocabulary set.

You can open up each word entry and see the full definition or delete the entry from here.

You can log out by clicking the “Log out” button in the navigation bar.

There are still a lot of ways the service can be improved in but I hope you will enjoy the Vocabuilder service in its current state. It supports everything you need to start learning vocabulary today. Enjoy!
